

ADULT SUPERVISION REQUIRED AT ALL TIMES

Birdwatching BINGO

There are lots of beautiful birds that visit our gardens throughout the year. Make some time for nature, find somewhere to perch and see how many of these feathered friends you can spot.

DID YOU KNOW?

You can attract even more birds to your garden with a bird feeder. Try building one from your Yeo Valley Milk bottle:

1. Cut a rectangle out of each side of your bottle.
2. Fill the base of the bottle with bird seed.
3. Cut a hole in the cap and thread some string through so you can hang up in your garden.
